"In the Journey of helping people to realize their true potential for an enriched Life and a Beautiful World"

Course Instructor:
Pendyala Prasad
His Experience Speaks

PURPOSE OF DESIGNING THIS WORKSHOP

“No one can do everything, but everyone can do something, In a way, nobody else can do it ”

A majority of us fall into the vicious cycle of learning and earning for survival and sustenance. It is not necessary that all of us become doctors or engineers. There is a world of opportunities waiting for us to explore. There are immense career possibilities and it needs a little self-exploration and introspection to realize what we are good at and work on our strengths, with passion and Success will have no choice but to follow us.

We have 64 art forms in this world, to name a few: music, dance, public speaking etc. There is a hidden talent in every one of us. However we don't give enough pause and thought in our lives to explore the hidden talent. 95% of the people in this world fall trap in the vicious cycle, fearing the basic needs, **EDUCATION & HEALTH**. They have an inherent phobia from generations together that, if they pursue their interest who will take care of their family in terms of basic needs, education and health.

India runs on the wheels of 2 Categories of Leaders...One is Political leaders who run the nation and the other is Business Leaders Who help in the nation's economic growth to run the nation. Our courses are meticulously designed in a way to make true leaders in the above 2 categories. We need True Leaders, who strive to provide Basic needs, Food, Clothes, and Shelter!!! At a minimum price. India really needs genuine leaders to make India a nation of affordable **“Education & Health”**, which is reachable to all sections of people with good standards. So that people can pursue their passion and create wonders, thereby leading India into a great nation in all walks and in all forms.

These courses are designed to meet the same vision.

- ★ To help you to explore the real 'You', to discover your strength and enjoy the field that you really like by putting your head, heart, and hands.
- ★ To masterize public speaking art which is the key and basic quality of a good leader.
- ★ To help you in becoming a true leader to lead India to a better and beautiful nation.
- ★ To help you in choosing the (B)right career choice after 10th and 12th.

**“The World Needs true leaders,
Be a Partner in Progress.”**

ABOUT PENDYALA PRASAD
